

# Tectonics and Sedimentary Basin Dynamics

14-16th September 2022

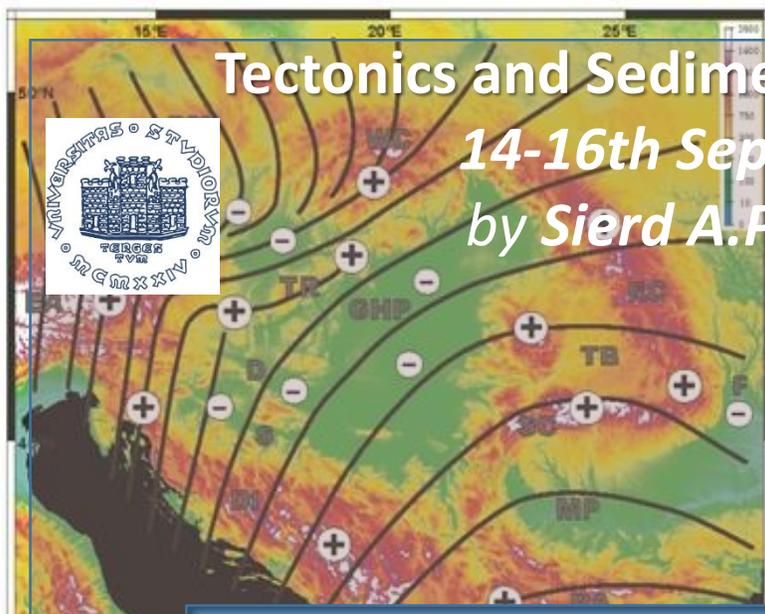

by Sierd A.P.L. Cloetingh

distinguished university professor  
Utrecht University  
[uu.nl/staff/SAPLCloetingh](http://uu.nl/staff/SAPLCloetingh)

Universiteit Utrecht

Trieste University

Via Weiss, 1, Palazzina C, room C

1. Introduction to tectonics and sedimentary basins
2. Lithospheric structure and dynamics
3. Tectonics of sedimentary basins
4. Regional case studies for extensional and compressional settings
5. Coupled deep Earth and surface processes

14<sup>th</sup> (Wednesday), 9:30-13:00 and 14:30-17:00

15<sup>th</sup> (Thursday), 9:30-13:00 and 14:30-17:00

16<sup>th</sup> (Friday), 9:30-13:00 and 14:30-17:00

Contact person for master and PhD students enrollment:  
Dr. Magdala Tesauo ([mtesauro@units.it](mailto:mtesauro@units.it))
