Watch the categories

ITA | ENG

3 years in 3 minutes

PhDs describe their **three-years research** in a **three-minutes video**

Rolling Stones

Researches, experiences and stories about the Earth narrated by scientists, passionate people and professionals

Young geologists

Geology at School: the stories of those who study the Earth in the primary and secondary school or at college-university

Rocks and food

For anyone who wants to tell how **rocks, minerals or fossils** are around or inside our dishes

Participate with your own video!

win up to 1000 Euro, the prize consorsional travel and SGI, SIMP and SPI membership

ITA | ENG

OTR is the first geological video contest for everybody. You should participate with a creative, informal video, where you explain your research, passions or new ideas regarding the Earth, in only 180 seconds.

We are looking for passionate contributions by utilizing animations, stop-motions, cartoons, time-lapse, interviews, music, poems, dance to demonstrate for a wider public of non-specialists.

CONTEST

1st prize video

In each category:

€ 1000

Free annual 2020 membership to the *Italian Geological Society*, the *Italian Society of Mineralogy and Petrology*, and the *Italian Paleontological Society*;
Contribution to travel and accommodation expenses for the award ceremony.

2nd prize video

In each category:

€ 600

Free annual 2020 membership to the SGI, SIMP and SPI 2020.

"Bloopers" Prize

To the funniest or most curious video footage:

€ 400

Timeline

Start immediately to produce your video with the techniques you prefer, choose the most suitable category for you and fill out the registration form. You will have time to submit your contribution to enter the competition by June 23, 2019.

On the Rocks, is the first geological video contest for everybody; an initiative by the *Italian Geological Society*, the *Italian Society of Mineralogy and Petrology* and the *Italian Paleontological Society*.

Matera is the 2019 European Capital of Culture with the overall events dedicated to the Humanistic culture.

MATERA 2019
EUROPEAN CAPITAL OF CULTURE

The **Italian Geological Society** propose to organise an European event for signing a Memorandum of understanding among EGU and representatives of national geoscientific societies meeting for:

- 1) increasing the visibility of geosciences in the society and policy makers;
- 2) reinforcing the capabilities for diffusion of the geoscientific culture establishing an yearly European day of Geology/Geoscience to celebrate the birthday of Geology (October 24th) coinciding with the start of the 79 A.D. Pompeii eruption.

Why Matera

Matera is the 2019 European Capital of Culture with the overall events dedicated to the Humanistic culture.

MATERA 2019
EUROPEAN CAPITAL OF CULTURE

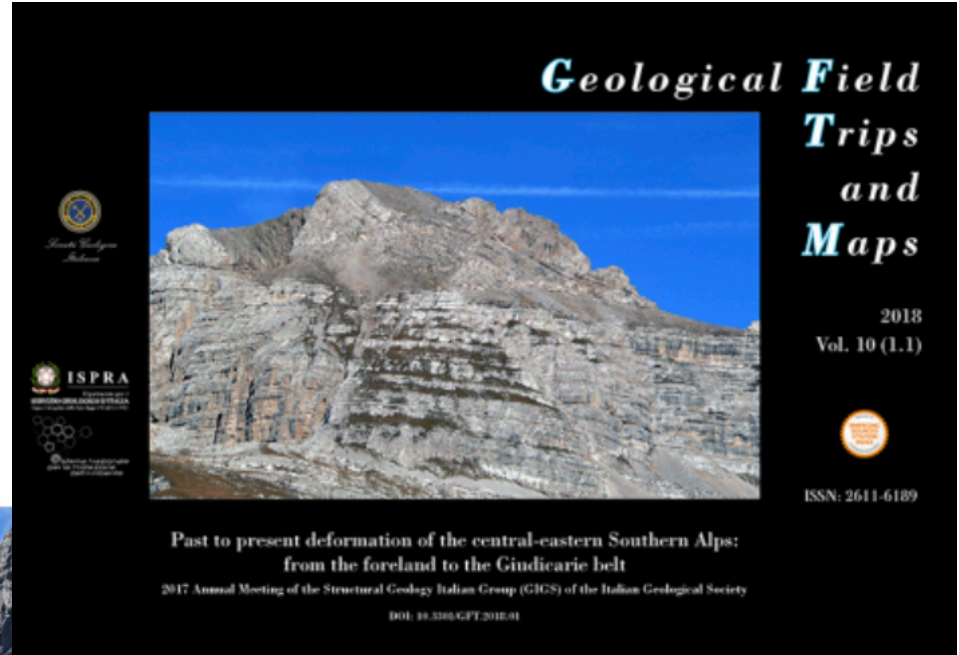

2019 – October-November – in the case that the **Matera 2019 Foundation** would assign a travel grant for each representatives of EGU and national geoscientific societies;

2020 – October – November in the case that travel expences would be not granted by the Fondazione
