

# Field trip organized by the “Working Group on Mediterranean Ophiolites” (September 7-8, 2023)

*Main organizers: Paola Tartarotti (UniMi) and Riccardo Tribuzio (UniPv)*

**Lake Miserin metaophiolite  
(Mont Avic Park)**

**Lower Mafic Complex  
(Biella Alps)**

**Day 1** - The metaophiolites of the Zermatt-Saas unit, recrystallized under blueschist- and eclogite-facies metamorphic conditions, exposed in the upper Champorcher valley (lower Aosta Valley)

**Day 2** - The deepest sector of the Permian Mafic Complex, in the lower continental crust unit of the Ivrea-Verbano Zone

**Further information about the field trip in:**
