

2-day PhD short course on:
The structure and growth of fault zones

Dr. Giovanni Camanni

When? 16-17 June 2020

Where? DiSTAR, University of Napoli Federico II

Short program of the course

Day 1:

- Segmented nature of fault zones, and relay zone evolution (3 hours)
- Modes of fault zone birth, growth, and death (3 hours)

Day 2:

- Aspects of fault-related deformation (3 hours)
- 3D fault zone structure (3 hours)

Prerequisites: basic knowledge of Structural Geology
