Slope dynamics and responses of surface processes to climate change

**Four days field course *The Mont Blanc Massif*
Courmayeur (AO) 19 - 22 September 2017**

More info: <http://phd-dsta.unipv.it/>

Lessons will be held by:

Daniele Giordan (CNR-IRPI Torino)

Philip Deline (Université Savoie Mont Blanc)

Davide Bertolo (Geological Service, Regione Valle d'Aosta)

Andrea Mondoni, Roberto Seppi, Francesco Zucca (Università di Pavia)

- climate change and geomorphological processes in Alpine regions
- cryosphere dynamics under climate warming conditions
- slope instability and monitoring systems
- climate change effects on Alpine ecosystems

No registration fee is required. Max number of participants: 30

PhD students interested in applying should send an email to:

aldo.bertone01@universitadipavia.it or niccolo.dematteis@irpi.cnr.it

Deadline for applying: 14 July 2017
